EXPERIENCE

Freelance Developer - Self-Employed (Remote) — May 2024 – Present

- Designed and developed responsive web applications with a frontend focus using React and Next.js.
- Collaborated with designers and clients on projects, emphasizing UI/UX quality and maintainable code.
- Delivered production-ready applications and handled deployments (Vercel, GitHub).

PROJECTS

MadeIn9ja — News Platform (Lead developer)

- Built a responsive news/blog website optimized for mobile and desktop that highlights local stories.
- Designed reusable UI components, article templates, and dynamic routing.
- Focused on performance, consistent image aspect ratios, and clean article layout with ad placements.

FarmTech — Agriculture x Technology Platform (Creator / Frontend Developer)

- A practical web platform that showcases modern tractors and farm machines and explains how they help farmers work faster and increase yields.
- Built to be both a polished product showcase and a reusable starter site for farms or agri-businesses.
- Designed responsive product pages with clear specs and feature comparisons.
- Built reusable UI components using styled-components for easy updates and extension.
- Mobile-first and accessibility-minded: large, readable UI for field use and fast load times.
- Structured to connect to APIs or e-commerce later (so it can grow into a full product catalog).

Spendex — AI-powered Finance App (Developer)

- A finance tool that helps users track spending and get quick money insights using AI.
- Built dashboards and visualizations for spending and savings.
- Integrated AI features to summarize transactions and suggest actions.
- Tech: Next.js/React, Tailwind/Framer Motion, OpenAI for insights, PostgreSQL/MongoDB.

Talents — Music & Label Platform (Next.js + Tailwind)

- A modern template for music artists and record labels showcasing new releases, artists, blogs, and e-commerce for tickets/tracks.
- Artist pages with photos, bios, and social links; New Releases page with audio/video previews using react-player.
- Record label pages to present the team and roster; blog and e-commerce areas for merch and tickets.
- Built with Next.js (SEO-friendly), TailwindCSS, Framer Motion, and Next SEO.

EDUCATION & CERTIFICATIONS

Obafemi Awolowo University, Ile-Ife — Studied Philosophy

Full-Stack Web Development — Certificate of Completion (Udemy)

Completed a comprehensive full-stack course covering modern frontend frameworks, backend basics, and databases.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS
