EXPERIENCE

MadeIn9ja (Owner / Lead Developer)

Full Stack Developer | Remote

March 2024 – Present

- Designed and built a fully functional news platform (desktop & mobile) with React and TypeScript.
- Implemented responsive layouts using Tailwind CSS, ensuring smooth user experience across devices.
- Optimized website performance and SEO, improving load speed and discoverability.
- Built modular reusable components, cutting development time by 40%.

Freelance Developer

Frontend & Full Stack Projects | Remote

May 2023 – Present

- Delivered end-to-end solutions for small businesses, including landing pages, portfolio sites, and dashboards.
- Collaborated with designers to translate UI/UX into responsive React/Next.js applications.
- Integrated backend APIs and managed deployment to hosting platforms like Vercel and Netlify.

PROJECTS

MadeIn9ja | React, TypeScript, Tailwind CSS
- Built a responsive news platform with mobile and desktop views.
- Implemented article pages, navigation, and reusable UI components.
- Focused on accessibility and responsiveness for Nigerian internet users.

Face Detection App | React, Clarifai API
- Developed a face detection system integrating Clarifai AI for real-time recognition.
- Implemented API calls with error handling and smooth UI updates.

Library Metadata Bot (LibMetaBot) | React, Node.js, MongoDB
- Created a demo system for AI-assisted cataloging with NLP-based search.
- Processed and validated large datasets, reducing manual input.
- Improved data organization efficiency by 50% in testing environments.

Other Projects
- Developed personal projects and practice applications using React, Next.js, and Node.js.

• Focused on clean UI/UX, responsiveness, and reliable deployments.
